### Kipahulu No. 4

"Commissioner Maui Council Boy Scouts of America Wailuku, Maui.

"Dear Pop,

"Dropping you a few lines to let you know about the fun we had on Friday night.

"At 7:30 p. m. we started with twenty-two boys and the scout master.

Where did we go? We walked down to Kipapa valley (below the English School.)

"Our good, young scoutmaster gave us sausages, pork and beans, soda crackers, potatoes and pork which we all ate to our hearts content, down at Kipapa Valley, around the great, big bon fire we built.

"Four boys took their cooking tests down there that night and they all did fine, 1/4 pound of pork and one big sweet potato.

"I guess the writer of this note is one of the boys who passed the cooking test Pop.

"The boys enjoyed the cooking test and building bon fires is their favorite sport in the night. We came home at 9:45 p. m.

"Before we left we made sure that the fires that were all put out well and good.

"Nothing more to relate I close with Alohas to you from all the scouts of Kipahulu.

Sincerely Yours  
"Lawrence Hashimoto Scribe  
Troop No. 4 Kipahulu"

### Puukoli No. 11

This is the number that Puukoli will have as soon as they are registered.

Last Friday night there was a dandy meeting in the school house and a number of boys were present who wanted to be scouts. This is always the case. There are plenty of boys but no one to lead. This time we have a leader, and say, he is a Jim Dandy. His name is Clinton Kanahele and he knows boys. He is an

outdoor man and is anxious to make good as a Scoutmaster. He is going to do it too.

### Patrol Leaders Meeting

The first real patrol leaders meeting was held at the Kahului Beach House Saturday afternoon to Sunday afternoon. There were 28 and five scout officials. Representatives from troops 1, 2, 3, 6, 7, 9, including Senior Patrol leaders, patrol leaders, assistant patrol leaders and scribes.

The officials were Commissioner Hutton, Scoutmasters Lang, Crockett and Munro and Assistant scoutmaster Nunes.

Saturday afternoon was given over to fun and scout tests. Saturday night instruction and talks on the duties of a Patrol Leader, then a bonfire with stories and jokes and conundrums by the scouts.

Sunday morning to life-saving instruction at the old wharf by Scoutmaster Langa who is the official Red Cross Instructor. Then swimming tests and tracking. The following leaders passed tests. Cooking Luke Herbert and William Chalmers of troop No. 1 Swimming, Luke Herbert and William Chalmers of troop 1, and Morio Masuda of troop 3. Tracking Jacintho Estrella troop No. 6 and K. Matsuoda troop 9. Scouts Brown, Herbert and Chalmers of troop 1 were walking to camp and back from Paia to pass their fourteen mile hike. Next gathering will be for the scribes.

When General Chang came here recently he brought Chang Ching-yao with him. The missionaries contend that the protection promised them by the governor never has made its appearance and they are and at the mercy of the disorderly brigands enrolled in Chang's forces.

For many months Rev. Reimert's death was the subject of negotiation between the American and Chinese governments, the former demanding that Chang Ching-yao be removed from his command and held responsible for the murder. The Chinese government complied finally, but Chang fled to Japan to avoid trial and had not reappeared until his visit here with General Chang.

It is reported that General Chang intends to have Chang's position of governor of Hunan restored to him or that he be given a command elsewhere. The idea of the Mukden warlord is regarded as being that Chang should be given a chance to redeem himself, despite the American government's attitude. Chang was well protected by a bodyguard of the soldiers of General Chang when he arrived.

It is understood here that the American government will protest if General Chang carries out his intention of attempting to have Chang reinstated.

ALOHA LODGE NO. 3 KNIGHTS OF PYTHIAS.

Regular meetings will be held at the Knights of Pythias Hall, Wailuku, on the second and fourth Friday of each month, at 8 p. m.

All visiting members are cordially invited to attend.

## Philippines Will Produce Own Cure In Leprosy Fight

MANILA, P. I., Dec. 20—(Associated Press Mail)—Lepers of the Philippine Islands are to be cured with the products of their own land, according to Dr. H. I. Cole, organic chemist of the bureau of science, who has just returned from an extensive investigation through the southern part of the archipelago where he found in abundance the Hydnocephalus Hutchinsoni, the tree which bears the nut from which chaulmoogra oil is obtained. This oil is made into ethyl-ester which has already been used successfully in the Hawaiian Islands and other places in the cure of leprosy.

Many of these trees were found on the island of Mindanao and Dr. Cole believes he has discovered enough to yield ten tons of seeds annually. He has arranged to have the nuts gathered for shipment to Manila where the oil will be extracted at the bureau of science.

"Chemically the chaulmoogra oil made from the Philippine seeds is as pure as the oil from India," said Dr. Cole. "We believe the Philippine ethyl-ester will give as good results as we have been getting from the Indian oil."

"It takes one ton of seed to care for 1,000 lepers for a year. We have a supply enough to care for 10,000 lepers and we may be able to find a larger supply. In that case we will probably send some of the oil to India, China and other Far East countries which have leprosy."

At present there are 5,000 lepers on the island of Cullion in the Philippine group, several hundred of whom are now receiving the chaulmoogra oil treatment. Governor General Wood who has expressed special interest in the treatment of these lepers has ordered a large quantity of the medicine and he plans to increase the number to whom it is given as fast as possible, until all have been given the benefit of it.

Addressing the National Federation of Women's Clubs this week, Governor General Wood said:

"I suggest that the National Federation of Women's Clubs raise half a million pesos (\$250,000) for the construction of separate barrages (villages) at Cullion for lepers and children of lepers who are clean. I believe that the federation should work for a specific object at a time, and I suggest Cullion because they are so palpably in need of relief. At present there are no separate quarters for those who by treatment or by birth are not tainted with leprosy. A barrage for these negative lepers is necessary. They are among the most unfortunate people in the islands."
